

P2P Global Network

The premier provider over the globe for supplemental income in distress situations.

P2P Global Network

Everyone's story

Whenever a person's income is suddenly halted due to unforeseen events, their investments, savings, and retirement are bound to be in jeopardy. This can interfere with the individual's financial goals and plans for their future.

They may feel their skill set is not up to the market standard. Perhaps **they forgot to adapt** their skills to today's changing job market, and are **afraid they will fail if they attempt to re-enter it**. This fear of failure makes them doubt the success of their future goals and can lead to the person not being as motivated to search for work. Loans are "dream" no lender will offer such loans to unemployed persons.

TECHNOLOGICAL. SEASONAL, STRUCTURAL... Every unemployment situation is situation to help. Neverending situation, neverending possibility to help out.

P2P Global Network

P2P Global Network

COMPETITIVE LANDSCAPE

Competitors	How our solution is better
Aflec (USA)	Lower cost service without rejections
State Unemployment	Garrenteed Benefits
Disability Income	Faster more reliable payout
Personal Savings	Keeps from draining your nest egg

We are one of the DAO's who don't have any direct competitor in this crypto arena.

We are pretty much undisputed authority in the field of compensating the users who are facing the burden of unemployment.

We have some indirect competitors in the field of Insurance.

The 1st blockchain based platform
to use crowdsourcing **to validate**
& award funding to address the
financial strain of unemployment.

P2P Global Network

THE PROBLEM

The Need for A Centralize Network

- Bias decision making found in a central point of authority.
- Unreliable data collection.
- Trust left to possible human error.
- Penetrable data storage system.
- Central authority transaction validation Process.

OUR SOLUTION

The P2P Global Network

- Anonymous crowdsourcing decision process.
- Undisputable Blockchain ledger.
- Trusting trigger executed smart contracts.
- Distributed data ledger.
- Decartelize transaction validation process.

P2P Global Network

SOLUTION: HOW

Through Initial Coin Distribution ICD we will build the Peer2Peer Global network and enable:

- Participants to collectively control the final decision
- Every person to gets the part time job opportunity from the P2P ecosystem
- Low cost plans to close the gap between the haves, and have nots in distress situations
- People to have backup money in situation of unemployment

SOLUTION: HOW

P2P Global is a true DAPP.

It is aimed at retaining core values such as **trust**, **transparency**, and a **decentralized system**. It will continue to provide the best privacy features across the entire globe, while eliminating the common single point of failure.

P2P Global Network

SOLUTION: HOW

P2P tokens will act as native currency inside our global network built on Ethereum Blockchain platform. The tokens can be used to consume several services offered by different partners.

We utilize the latest secure code base of Solidity contract along with the best security standards built as an Ethereum DAPP is the key aspect of P2P Global Network

SOLUTION: Subscription process

The user must pay a subscription fee to get access to the system.
There are 3 month, 6 months and 1-year subscription plans.

BASIC 3 MONTH PLANS (Based on USD or 5¢ per P2P)

Member Fee \$3 (60-P2P) = \$200 (400-P2P)
Member Fee \$6 (120-P2P) = \$500 (1,000-P2P)
Member Fee \$13 (260-P2P) = \$1,500 (3,000-P2P)

PREMIUM 3 MONTH PLAN (Based on USD or 5¢ per P2P)

Member Fee \$24 (480-P2P) = \$3,000 (6,000-P2P)
Member Fee \$45 (900-P2P) = \$5,000 (10,000-P2P)
Member Fee \$75 (1,500-P2P) = \$9,000 (18,000-P2P)

We do so in a simple,
trusting & secure way.
